Intake Pipe for Fire Detection/Extinguishing System

Extension set

SCHRACK-Info

- The suction pipe set is used for extended smoke detection for hermetically separated enclosures in which there is neither a Primary nor a Secondary fire extinguishing system (FES) or a early fire detection system (EFD).
- One set is required for each additional enclosure.

Technické informácie

Dĺžka/hĺbka (mm)	3.000,00
Hmotnosť (kg)	1,00
EAN kód	9004840995565
Cena	44,47
Priemer (mm)	35,00
Typ produktu	protipožiarna ochrana - príslušenstvo
